WELDING RESEARCH 1951

INDEX

AUTHORS

	PAGE
COLE, J. H.—Development of a 600-ampere ArgonArc Torch for the Manual Welding of Thick Aluminium Alloy Plate	157r
COTTRELL, C. L. M., JACKSON, M.D., and WHITMAN, J. G.—Control of Cracking in the Metal Arc Welding of High Tensile Structural Steels	201r
DIXON, H. E., and GAMESON, J. H.—Machine Characteristics for Flash Welding Aluminium Alloys	163r
GAMESON, J. H., and DIXON, H. E.—Machine Characteristics for Flash Welding Aluminium Alloys	163r
HIPPERSON, A. J., and TEANBY, P. M.—Spot Welding of Coated Mild Steel Sheet	276r
HORNE, M. R.—Effect of Strain Hardening on the Equalisation of Moments in the Simple Plastic Theory	147r
JACKSON, M. D., COTTRELL, C. L. M., and WHITMAN, J. G.—Control of Cracking in the Metal Arc Welding of High Tensile Structural Steels	201r
NEEDHAM, J. C., and ORTON, L. H.—A.C. Argonarc Process for Welding Aluminium. An Oscillographic Analysis of Effects of Transformer Open-Circuit Voltage on Arc Re-ignition	253r
NG, WAH HING.—Behaviour and Design of Battened Structural Members	175r
ORTON, L. H., and NEEDHAM, J. C.—A.C. Argonarc Process for Welding Aluminium. An Oscillographic Analysis of Effects of Transformer Open-Circuit Voltage on Arc Re-ignition	253r
TEANBY, P. M., and HIPPERSON, A. J.—Spot Welding of Coated Mild Steel Sheet	276r
WECK, R.—Fatigue Strength of Panels with Welded Angle Stiffeners	219r
WHITMAN, J. G., JACKSON, M. D., and COTTRELL, C. L. M.—Control of Cracking in the Metal Arc Welding of High Tensile Structural Steels	201r

TITLES

A.C. Argonarc Process for Welding Aluminium. An Oscillographic Analysis of Effects of Transformer Open-Circuit Voltage on Arc Re-ignition, by J. C. Needham and L. H. Orton	253r
Behaviour and Design of Battened Structural Members by Wah Hing Ng	175r
Control of Cracking in the Metal Arc Welding of High Tensile Structural Steels, by C. L. M. Cottrell, M. D. Jackson and J. G. Whitman	201r
Developing a Weldable High Tensile Steel from 18-lb. H.F. Melts	189r
Development of a 600-ampere Argon Arc Torch for the Manual Welding of Thick Aluminium Alloy Plate, by J. H. Cole	157r
Effect of Strain Hardening on the Equalisation of Moments in the Simple Plastic Theory, by M. R. Horne	147r
Fatigue Strength of Panels with Welded Angle Stiffeners, by R. Weck	219r
Industrial Use of Flash Welding, dealing in particular with Ferrous Materials	135r
Machine Characteristics for Flash Welding Aluminium Alloys, by H. E. Dixon and J. H. Gameson	163r
Spot Welding of Coated Mild Steel Sheet, by A. J. Hipperson and P. M. Teanby	276r
